## Intro

We have been discussing The Great Reset for years and now, with about 60 days left before the mid-term election, it is time to make some plans to survive, skate, shade, shatter, shirk, shock, smash, snigger, soldier, shuck, suck it up, or maybe something else.

We all know what the problem is, or what the problems are, and have a pretty good idea of what “they” are getting ready to do. We can argue all day long on the what and when but this note is taking the position of “we only have about 60 days till it hits the fan.” The question is “Are you ready for it?”

The warning is: **Assume the worse, get your house in order for the coming ordeal - The balloon is up.**

Below is a sample list of the folks we have been reading and talking about and the folks we have been watching and listening to on TV. Some tell what it is, some tell us it is here, and some give guidance.

## Book Examples:

George Orwell “1984”

Ayn Rand “Atlas Shrugged”

James Inhofe “The Greatest Hoax”

Dane Wigington “Geoengineering: A Chronicle of Indictment”

Roger McNamee “Zucked”

Wilfred McClay “Land of Hope: An Invitation to the Great American Story”

Joel Kotkin “The Coming of NEO Feudalism”

Mark Levin “American Marxism”

Peter & Ginger Breggin “COVID-19 and the Global Predators”

Gad Saad “The Parasitic Mind”

One.

The red fire bell is still ringing in my head and now has picked up the cadence with more noise and louder clanking. Most people are waiting for the mid-term election to get back the power in Congress. Personally, that would be nice but the dems/left/cabal/deepstate/globalists are going to distract us with another award winning left narrative they already have planned and the election may not even happen. My guess, like I have said for six months, an emergency will be declared over climate lockdown, food shortage, new COVID, digital currency, the rotten war in Ukraine, or a dirty nuclear bomb going off and they will take over.

This is what they do best: Problem, Reaction, Solution...you won't like whatever the F it is.

The Globalists have told us what they are going to do and we hear from the White House and the news media exactly what they are doing.

If there was ever a time to "get set" or "get alarmed" or "Fix bayonets" now is the time.

Two.

Here are some ideas for consideration or a Plan of Attack (POA) – actually this may all be defensive. Maybe then a Plan of Defense (POD). We, you, (all of us) need to stock up EVERYTHING we can for the crisis: what a month, three, six, or a year? You decide.

Make a list of the things you must have and stock up. I would suggest your medical supplies first and see if you can get ahead at the pharmacy – yes, it may cost some money. Then the normal stuff to save and have on hand like toilet paper, water, batteries, candles, propane stove, a radio, canned goods – you should have already done this but find out what it takes to survive without the government helping us.

And of course have enough 'stuff' to defend your home.

God help us all...and hope you have good neighbors.

Three.

Few of the books I have read give us much information on what to do when the other shoe falls. The most recent book by Alex Jones lists "Ten Crazy Things the Globalists Say about Themselves and how to Fight Them" (pp. 213-220).

**"The tenth crazy thing the globalists do is how freely they state that in the future you will own nothing and be happy...The ultimate outcome of the plan of the globalists. We will have a visible split between the slaves and the free people. The elite will struggle to give all the benefits to the members of their city and try to starve those who live outside the city.**

Now we know what happens to the dissidents.

They will be exiled, kept from the city, and **forced into a digital gulag**" (p. 219).
