*"I was ~~wrong~~ in error..."* Gary Heartsill 23. April 2024

"Even he, Trump, held back 20 percent of the documents," Stone told Jack Posobiec of *Human Events*, part of the GOP nonprofit [Turning Point USA](#). "When I had the occasion to ask him about that, I said, 'Why didn't you let it all out?' "He said, 'I can't tell you, it's so horrible you wouldn't believe it. Someday you'll find out.' That was the sum total of it and he didn't want to talk further about it. He kicked the can down the road to President Joe Biden."<sup>1</sup>

There are two issues with Trump's comment "it's so horrible you wouldn't believe it" and the **first** is the speculation for the rest of us as to what is so horrible? Was he talking about what 'they' did to his body trying to show only three shots or what they did to him (or someone else's body) in Washington, or even what they did with his body when it was moved later on from the first burial with the eternal fire? Would it be horrible to find out who killed Kennedy?

And the **second**: We are going on about eleven presidents since November 23, 1963 at 12:30 Dallas time, and each one has had the privilege to read – or be briefed on (among other things) the JFK report(s). Why hasn't at least one of them made it public? Your guess is as good as mine but I think the perpetrators of the killing are pretty close to home – and they don't want that bit of info known to the bourgeois American ordinary common person.

Let me add a **third** reason. I don't think, in spite of all the reports/records/readings, that the truth is written down somewhere that says by name(s) who was responsible for JFK's death. You may get the names of all the cross firing shooters that day but these trigger guys were not the ones responsible for his elimination.

*The answer is on my title page.* Did you read it? Do you believe it?

### The task of this paper

Is to spend a few pages on how Chemtrails, President Trump, JFK, The Secret Team, the Illuminati, the CIA, and L. Fletcher Prouty all figure in (*finally!!!!*) with "who done it."

## Chemtrails    **SAI**

This high altitude (they spray at 40,000 feet) phenomenon is called “Stratospheric Aerosol Injection” (SAI) by **CIA Director John Brennan** back in June of 2016.<sup>2</sup> It took me from about June of 2015 to believe that the “Geoengineering” could take place over my house, my state, and my country.

My paper makes the argument that this world wide operation of spraying sulfur, strontium, barium, nano aluminum, cadmium – to name a few – is to then reflect the sun rays.

My paper was urging (actually a plan to urge) my government to stop this operation. I “knew” President Trump would see right through Brennan, the CIA, the FAA, and the United States Congress and stop this.

Of course he didn’t.

Why?

My argument then on page 7 was:

Question 1. Who is responsible for the chemtrails? Answer: USGCRP (or whoever is running USGCRP – the so-called “elites” or the “illuminati”?). USGCRP = U.S. Global Change Research Program.

These two names are called sometimes known as the “Deep State” and maybe associated with the idea of non-elected bureaucrats or government employees. These people just work for USGCRP which has another name or ‘agencies of the swamp.’

A better term for “illuminati” is The Secret Team or **ST**. The Secret Team is a group in the CIA that run the show. They call the shots. No one really knows who they are but ST made it clear for Trump that he was not going to write an Executive Order to stop them from ‘seeding the clouds’ around the world.

The idea that Trump did not shut this operation down in the first four months of his office was the most disappointing event in his tenure - only exceeded by his not shutting them down in his four years of office.

I will come back to end this paper with a comment about Trump and The Secret Team.

## The Secret Team

**ST**

You may remember in the movie JFK where Costner, playing the part of Jim Garrison met with Mr. X who was Donald Sutherland<sup>3</sup> “I just hope you get a break...” (at exactly 2:00 in the movie) Mr. X in real life was Colonel L. Fletcher Prouty, USAF – and CIA...

Leroy Fletcher Prouty<sup>4</sup>

Robert Wiedrich, a writer for the Chicago Tribune, writes about Prouty’s book:<sup>5</sup>

Prouty does not believe the CIA was directly responsible for Kennedy’s death. He does believe, tho, that people who worked for the CIA on a clandestine, part-time basis may have been involved in behalf of what he calls “The Secret Team,” a loose confederation of varied governmental military, industrial, and intelligence people – even “think tank” analysts and international businessmen – who have forged an incredible behind-the-scenes power bloc masquerading behind the skirts of CIA clandestine operations.

<sup>3</sup> Prouty served as a technical adviser to [Oliver Stone's](#) 1991 film *JFK*. He was the inspiration for the mysterious "X" (played by [Donald Sutherland](#)), who assists [Jim Garrison](#) in the movie. Wikipedia

L. Fletcher Prouty (2011). *The secret team: The CIA and its allies in control of the United States and the world*. New York, NY: Skyhorse Publishing.

In his *Preface...1997*, he says the Secret Team is

CIA

“the point of the spear...it is covert...it is lawless...It is subservient to the Power Elite and protected by them...they are anonymous, and their network is ancient and world-wide. Let us draw an example from recent history.

During the Senate Hearing of 1975 on ‘Alleged Assassination Ploys Involving Foreign Leaders,’ Senator Charles C. Mathias’ thoughts went back to November 22, 1963 and to the coup d’etat brought about the surgical precision of the death of President John F. Kennedy, when he said:

Let me draw an example from history. When Thomas Becket (Saint Thomas Becket, 1118-1170) was proving to be an annoyance, as Castro; the King said “Who will rid me of this man?” He didn’t say to somebody, go out and murder him. He said who will rid me of this man, and let it go at that. (As you recall, Thomas Becket’s threat was not against the King, it was against the way the King wanted to run the government.)

With no explicit orders, and with no more authority than that, four of King Henry’s knights, found and killed “this man,” Saint Thomas Becket inside of his church. That simple statement...no more than a wish floating in air...proved to be all the orders needed.

Then, with that great historical event in mind, Senator Mathias went on to say:

...that is typical of the kind of thing which might be said, which might be taken by the Director of Central Intelligence or by anybody else, as Presidential authorization to go forward...you felt that some spark had been transmitted...

To this Senator Jesse Helms added:

Yes, and if he had disappeared from the scene they would not have been unhappy.

There’s the point! Because the structure, a “Power Elite,” “High Cabal” or similar ultimate ruling organization, exists...which ignites that “spark” of an assumed “authorization to go forward.” Very often, this is the way in which the Secret Team gets its orders...they are no more than “a wish floating in air.”

This book is about a major element of this real power structure of the world and of its impact upon the CIA and its allies around the World (pp. xxxix – xl).

## Just past the Half way point – Four notes

**One.** The ‘whoever is running the show’ I had classified as the “illuminati” and Prouty calls this “Power Elite” The Secret Team” so my error is in the naming or classification of who the “Deep State” really is. We are not done with these guys...they are still around. The Chemtrails (SAI) are still visible...  
*The CIA is not directly involved but some of the elite secret folks in the CIA are responsible.*

**Two.** Have railed all these years over Lyndon Baines “GD” Johnson being the crook that he was but I maintained he was the one responsible killing the president and for the Vietnam war – especially after the “Gulf of Tonkin Incident.” I have been in error. LBJ was just following the script of the ST (illuminati). The day after JFK was buried he started the Vietnam war escalation. He did it because he had his ‘instructions.’  
*The CIA is not directly involved but some of the elite secret folks in the CIA are responsible.*

**Three.** My assumption all along has been toward proving JFK was killed by more than one shooter. The Warren Commission has been a pitiful distraction poorly done. JFK was methodically shot from different directions, the route was selected for maximum crossfire advantage, the limo was slowed down when the umbrella was opened, the body guards were pulled back, and the plan worked. My error was not seeing the methodology, the madness, and the manifestation of success in the mission to kill JFK.  
*The CIA is not directly involved but some of the elite secret folks in the CIA are responsible.*

**Four.** The “Who done it” boils down to members of the CIA. There has been a lot of smoke screens but when you white light the evidence it reeks of CIA involvement. My error was not seeing earlier. They have done well hiding the folks who not only did the shooting but hiding the folks that suggested “a wish floating in air.”  
*The CIA is not directly involved but some of the elite secret folks in the CIA are responsible.*

## **JFK** John F. Kennedy

Prouty's book does give insight into both the reasons why they took him out and reasons why the presidents since have been rather reluctant to do things on their own. Prouty is a master at discussing the makeup, maneuvers, and machinations (and also conspiracies) of the Central Intelligence Agency.

He writes well and is therefore easy reading. His in depth rendering of the history and particularly his experience in the CIA is just short of intriguing. He makes a big argument about the CIA not always telling the truth and what they do say, brief, discuss, write about, and employ is not always what it seems like and may be set up to deceive the listener, client, or the politician or newsperson. He makes a big argument about what is written and signed off on, is not necessarily done by the person who signs the document.

He makes a big argument about the briefings he gave as not always what he was briefing was the truth but a persuasive rendering to get someone to comply, buy in, and then respond to the information. It is called brainwashing.

This makes me pause as I read his book...

Prouty was not mentioned all that much in my previous research on JFK<sup>6</sup> and therefore is now a pleasant rendering of old material with a different twist. Again his work goes into the heart and soul of the CIA and is (again) a good read.

Prouty's book moved from the details of items like the 23 pages in Groden's book "The Killing of a President" where he shows each of the six shots frame by frame with "There were at least two other shots fired in Dealey Plaza that day, perhaps even four more" (p. 40).

Prouty's work explains what we see, for instance, in watching the JFK movie. Where we see the limos turn off of Houston on to Elm and then going west, the details of the crossfire effectiveness is shown with remarkable details of both target and by spectators. Of course, it was an ambush.

Prouty explains this same detail in his chapter 23 "Five Presidents: 'Nightmares We Inherited':

**"When those rifles crackled over Dealey Plaza in Dallas, Texas, on November 22, 1963...[they] made [their] move into the big time. [They] took control of the President and the presidency. The man [they] killed was no longer a problem, and they had made certain that his successor, Lyndon Johnson, heard and remembered the sound of those guns"**

(A Groden quote, p. 5).

Prouty points out where LBJ actions are not his own. I thought he was - but he was being 'directed' in his new job. "The record shows that Lyndon Johnson almost never said 'No'" (Prouty, p. 503).

Prouty – the end of his book.

For all its fabrication and apparent unreality, especially in this open society, the ST machine does have a central soul or brain...or perhaps...holy spirit. It is the evidence of a form of new religion. It has secrets. It has its divine...rights and obligations. It has self-righteous power over life and death. It does not believe in anything. It does not value anything. It is utterly ruthless. Its greatest motivating force and drive is entirely undefined, because it moves by pressure. It reacts. It is therefore blind, meaningless, senseless. It will do anything in the name of anti-Communism.

As Kennedy saw, as Johnson may have seen, as Nixon's "nightmare" may suggest, there is but one way to control this massive ST structure. It must be uncovered. It must be made known. It must be exposed to light. And then it must be told NO. To be effective, this means that Congress must cut its money off, not only at the central source, but at all the hidden nerve centers.

Thus this ST must be exposed, bared, and silenced. Then a new and better way of life must be created. We must end the philosophy of Defense... The CIA should be, must be, the "quiet intelligence arm of the President." Not his nightmare. The CIA should be limited to the function of intelligence – and not a bit more (pp. 508-509).

Trump

(My final comments...a prayer, actually)

I wonder about Trump.  
...We all wonder about him.

Wonder what the "High Cabal" Secret Team thinks about Trump?

He has a lot of light on him...

Maybe they won't turn him west on Elm street.
