Survey questions for **Reminiscences: Scrap Book for my Grandkids**

---

Below is a list of statements about your adventure with the Scrap Book on the Web site. The statements deal mostly with the mechanical aspect of downloading, speed, design, reading, and your responses to the same. Please answer each one of the comments by placing the number that best reflects your personal feeling (or attitude) toward each statement. Use this scale:

9	8	7	6	5	4	3	2	1
Strongly Agree		Agree		Neutral		Disagree		Strongly Disagree

- \_\_\_ Downloading each of the .PDF files was no problem.
- \_\_\_ Navigating from one folder to another or back to home was a piece of cake.
- \_\_\_ The whole project should be redone by a professional steeped in journalism.
- \_\_\_ Way too many pictures!
- \_\_\_ When I get older I will do my own Scrap Book for my grandkids.
- \_\_\_ This project did NOT meet the tasks set up in Part I.
- \_\_\_ Taking this Scrap Book survey will add to my academic education in statistical research.
- \_\_\_ Having a hard copy, even in black and white, would be worth at least 50 bucks.
- \_\_\_ The three lineage pages of our family history is the worthwhile highlight of the Book.
- \_\_\_ I am really looking forward to our F2F meeting as I do have a lot of questions.
- \_\_\_ The whole project would be better not having to do all these tests and statistics.

Please list below three pedagogical reasons why you are being required to complete these three instruments before you receive the black and white hard copy version of the Scrap Book?

### Your "feeling" or "attitude" (maybe, your "impression") of Scrap Book

The purpose of this instrument is to measure your attitude toward the Scrap Book. Below is a set of descriptive scales. Place a check mark or an "x" in the appropriate space, as shown in the example, based on your feelings of how closely the concept is related to either end of the scale.

fair    \_\_\_:    x:    \_\_\_:    \_\_\_:    \_\_\_:    \_\_\_:    \_\_\_:    unfair  
 unfair \_\_\_:    \_\_\_:    \_\_\_:    \_\_\_:    \_\_\_:    \_\_\_:    x:    fair

Make sure you place a mark on every scale. Do not omit and do not put more than one mark on a single scale. Mark each as a separate and independent judgment. Work with your best speed and do not worry or puzzle over individual scales.

It is your first impression that counts - your first feeling.

NOTE: Like the two examples "some scales are reversed." Straight down one side won't work!
